We appreciate anyone who is able to donate a toy  
this holiday season!

## **\*\*CA REMINDERS \*\***

**BOATING SAFETY COURSES:** Offered VIRTUALLY every Tuesday @ 6pm. Please contact Water Patrol to register: 636-625-3120.

**ANNOUNCEMENTS:** A 2.75% Credit/Debit Card Convenience Fee was implemented on October 1<sup>st</sup> to help offset the cost of processing Credit/Debit Card transactions. This fee will only apply to Assessments, Boat Registration, Dock & Amenity fee transactions paid via credit card. We are working on an ACH option for the website and of course, the office always accepts checks & cash in addition to credit cards.

### **CA OFFICE HOURS: October - December**

**Monday – Thursday 8 – 5 pm**

**Friday 8 – 4 pm**

**ACC approval is required for painting your house, new siding and roofs, new entry & garage doors, new construction, room additions, decks or any projects that alter the exterior appearance of your home.**

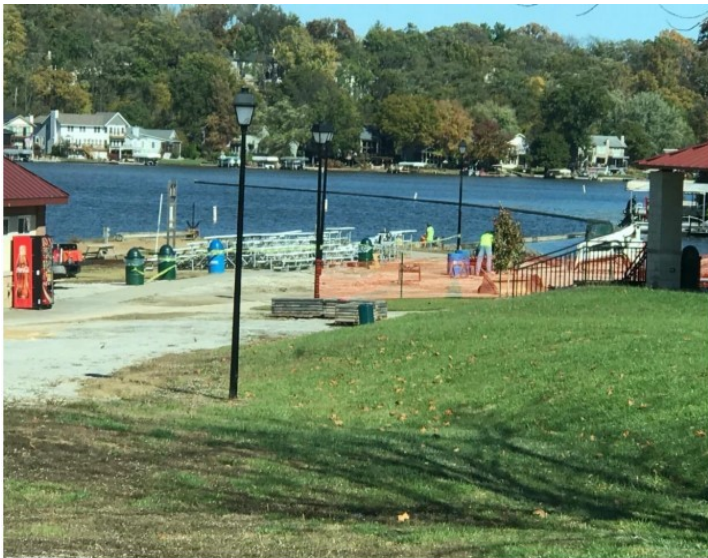

### **ACC COMMITTEE IS SEEKING NEW MEMBERS:**

#### **(BOTH REGULAR MEMEBERS AND ALTERNATIVES)**

The ACC meets twice monthly on the 2<sup>nd</sup> & 4<sup>th</sup> Thursdays each month at 6:30P.M. in the Veterans Room. The ACC reviews and approves home Improvement & construction projects. Please contact Shirley Vogt at: [svogt@lslca.com](mailto:svogt@lslca.com) to apply.

**DREDGING:** Attention LSLCA Members: The Lake Saint Louis Community Association is preparing for our upcoming dredge. Hydraulic dredging is scheduled in Dauphine Cove no less than every seven years, per our LSLCA By-Laws. Magruder Construction has been awarded the dredging bid for Dauphine Cove and Regatta Bay. Magruder is currently on-site at Jefferson Point fusing the pipeline together that is being installed through Pereque Creek to our silt basin at Duello Road. Active hydraulic dredging will begin in Dauphine Cove by the second week in November. It will take approximately three weeks to finalize the installation of the pipeline, dredging equipment, pumps, tug boats, barges, and fuel barge. Please exercise extreme caution if you need to enter Dauphine Cove while dredging preparation and active dredging are taking place. The pipeline for the dredge may not be visible at night. Dauphine Cove will be a no-wake zone until further notice. Dredging in this cove is expected to be completed by March 2021 (weather permitting).

Pipeline in Dauphine Cove

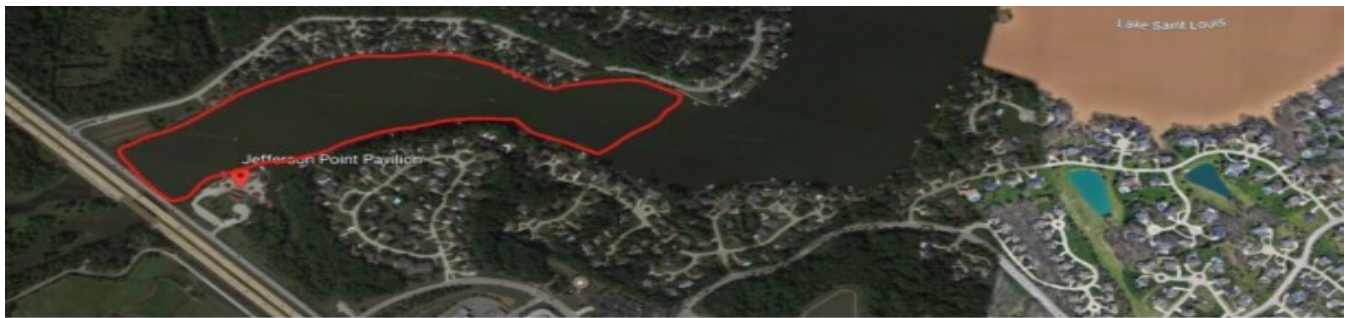

## PHOTOS OF DREDGING AND THE SILT BASIN PROGRESS

Pipeline heading to Pereque Creek/Duello Road Silt Basin

Dauphine Cove- Dredging Zone. Approximately 180K cubic yards of silt will be removed from this area, bringing the water depth back to 7.5-8' upon completion.

Duello Road Silt Basin. Approximately 22 acres. Our maintenance crew has removed 280K cubic yards of silt from the basin over the last three years in preparation for dredging.

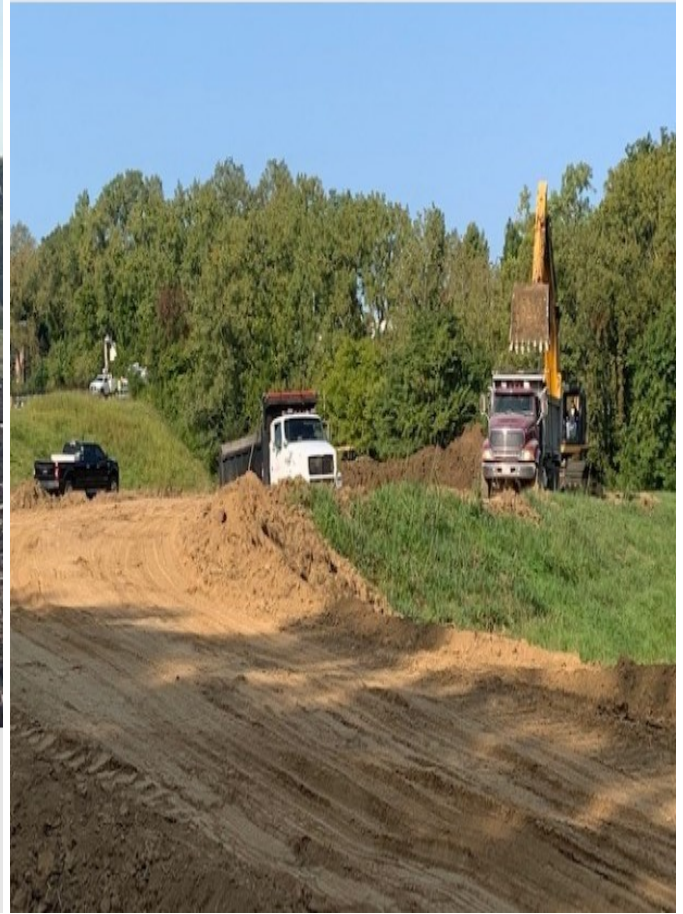

Regatta Bay/Timberline Trails area scheduled for hydraulic dredging after Dauphine Cove is complete. This is expected to begin in early April 2021 and to be completed by early June 2021.

Cannon Excavating has been preparing the silt basin by the big dam to receive the silt from Regatta Bay. Approximately 25K cubic yards are scheduled to be dredged from this cove.

LSLCA Maintenance Staff operates an excavator and bulldozer for removing silt. Dump trucks come from all over to take the dirt from the basin. We average 80-100 trucks per day (weather pending).

The total cost of this project is \$1.6M. Every year, the LSLCA contributes \$300K to the dredging fund in order to prepare for this process.

We will keep you updated with photos and news regarding dredging. Winter weather will have an impact on whether the project stays on schedule, so please bear with us.

Again, use caution in Dauphine Cove and only enter this area if necessary. Please observe No Wake. Do not operate your boat near the dredging equipment.
