LAKE LOWERING:

The Small Lake will be lowered for lakefront homeowners to perform maintenance from **Oct. 15th– Dec. 15th .**

Lakefront projects require ACC approval.

Please submit lakefront projects to Katey Bernstein.

***** The [2023 LSLCA Audit documents](#) are now available on our website: www.lslca.com under the Member Portal ****

PROCEDURES FOR CA BOAT LIFTS

Rental docks Only—Slips with an approved lift must pay \$825 Lift Deposit and fill out a Lift Agreement form at the Front Desk of the CA Office.

Please do **NOT** purchase a boat lift until the lift measurements can be verified to see if the lift will adequately fit inside your half of the rental slip!

All boat lifts must be installed inside their half (50%) of the rental slip with adequate space allowed between the 2 boat lifts. Most lifts cannot be over 10' wide for rental slips (measured from outside foot to outside foot).

ALL New & Used boat lifts require a 5-step approval process

Before a boat lift can be installed. This includes boat lifts being installed in personal docks...and CA rental docks.

It is the owner's responsibility to submit the paperwork to get approval.

If a boat lift is installed *without* a permit, the CA can demand that it be removed permanently at the owner's expense. The 5-Step Lakefront Project Approval form must be completed along with the regular application for all Lakefront projects (Including docks, lifts & seawalls).

BOATING SAFETY COURSES

These courses are done in person.

Please contact Water Patrol to schedule a date and time: 636-625-3120.

This is a one time course; if you have taken our class there is no need to take it again.

LAKES & PARKS—Rule #26

Changed to the following, BOD approved.

26. Towing within all no wake zones is allowed except within 100 feet of a boat ramp or gas dock.

CHILD & INFANT LIFESAVER CPR & AED CLASS

**NOVEMBER 19
7:00-8:30 PM**

**LAKE ST. LOUIS
COMMUNITY
ASSOCIATION**

If a neighbor, friend, or family member were to suffer a sudden cardiac arrest, would you know what to do?

The first minutes following a cardiac arrest are the most critical, and providing help to the patient is easier than you may think. In our smallest patients, a combination of compressions and breaths can make the biggest difference in cardiac arrest outcomes.

In this one-hour class, St. Charles County Ambulance District team members will discuss the science behind cardiac arrest, and why good chest compressions are so important. Other topics will include how to provide choking relief to children and infants, and an overview of Missouri's Good Samaritan Law.

CAN KIDS ATTEND?

Absolutely! Though younger children may not be able to achieve proper compression depth, it's never too early to initiate the conversation.

AM I CERTIFIED AFTER THIS CLASS?

Lifesaver CPR classes do not yield a course completion card - they're intended to be an immersive overview, but would not satisfy requirements of some workplaces.

DO I NEED TO REGISTER?

No registration needed! Come as you are and ready to learn a life changing skill.

**St. Charles County
Ambulance District**
