

Greeting neighbors,

My name is Jerry Harris and I am running for a seat on the Lake St Louis Community Association Board of Directors. I would appreciate a few minutes of your time to get to know me and why I am excited about the possibility of serving you for the next two years.

I recently retired from not quite 30 years of Mechanical Facility Management & Maintenance at Glaxo-Smith-Klein in St Louis, preceded by almost 10 years at Christian Hospitals in North County. My experiences to include the facility development of 'Village North' from start to finish. Several other key elements to my experience that I believe give me the knowledge and insight to best serve our community, in a fiscally responsible manner, include:

Procurement – Ensuring we always had the highest quality products and services at the lowest price

Strategic thinking – Learned how today's decisions effect future development and maintenance

Team leadership & Development– I have learned the value of working together toward a common goal through people management and gaining the respect of my team to achieve each and every goal presented to us, and to learn from each other and the process along the way.

My Lake St Louis story is not nearly as old as my employment experience, but can definitely be described as a 'Love Story'. Since moving to LSLCA with my lovely wife of 36 years, Kathy, we have been blessed to make so many wonderful friends through the many clubs and experiences we have gained.

Drawing on my past experiences as a Manager & Coach of countless teams (for my now three grown children), Participating as a member of many Parish councils for planning countless events, serving as President of the Hazelwood Optimists club, also as President of St Norbert's CYC group, I have since joined and/or participated in the following clubs in the CA:

Golf Committee

Junior Golf Club

Chairman of Saturday Morning Golf

Mens Cornhole League

Participation in untold numbers of fundraisers in LSLCA to help the less fortunate and brighten the future of so many by the various clubs of the Community Association

Unwavering support of the Clubhouse and the continual strides forward in making our clubhouse truly the hub of the CA for all members.

In closing, Kathy and I know that our last move was truly our 'last move'. Our daughter has moved to Lake St Louis with our two gorgeous granddaughters and one of our grown sons is actively looking for his own place to call home here in the CA.

I am here for life and have the time, the energy, the fiscal watchdog experience, the planning skills, the people management skills and the passion to serve you for the next two years should you choose me as one of the candidates on this year's ballot.

God Bless,

Jerry Harris
