

### **JOYCE COREY**

Hello everyone. Before I tell you about my history and resume, I would like to state one thing. I am passionate about decisions made at LSLCA that benefit the ENTIRE community. I am passionate about maintaining and improving our valuable amenities. I also believe that continuity is very important in any business or organization. As of now, there will only be one person on the CA BOD that has at least 3 years' experience. This is not an ideal situation. I also believe that the main responsibility of the CA BOD is to protect the property values of our members. I will support all the committees and clubs in the CA realizing, however, that we are a "residential community" first and that all members and clubs must respect the rules and covenants of the community.

I moved to Lake St Louis in 2006. I am a retired Registered Nurse. For 8 years I lived on the "big" lake at Ravens Pointe. Four years ago, I moved to the "small" lake for calmer waters and a flat backyard for my grandchildren to enjoy. I think I have a good idea what both lakes' needs are. Listed are the organizations and volunteering I am involved with.

- . 3 years on LSLCA Board of Directors
- . voted to enforce standing CA rules that have been lax for many years ( ie truant boat registrations and subleasing of CA rental docks)
- . encouraged creativity and new ideas among our employees
- . liaison for the LSLCA BOD at Lakes and Parks Committee (2017) and Engineering and Facilities Committee (2018)
- . 8 years on the Board of Jardin du Lac Garden Club....2 years as President
- . 12 years in LSL Pontooneers Club....2 years as Commodore with my life mate Paul Borriello.
- . volunteer Receptionist at City Hall since 2007
- . member of the LSL Architectural Review Board since 2011

There is no better place to live. I am interested in finding ways to improve the values of the homes within the CA. I am pursuing forming a committee in conjunction with LSL City to meld our codes so moving into our area as well as remodeling our homes is easier. I am anxious to continue serving you as a CA Board member and adding a woman's opinion on decisions. My greatest asset is my many past roles in a leadership position and my love and passion for this community. I hope you will, again, consider me for the CA Board of Directors. Thank you!
