

Class Six & Eight Approved Tournament Boat Restrictions

Length - Maximum overall length shall not exceed 20' 9" for inboard class 6 and 8 boats. *All boats subject to verification if documented length is within 12" of the maximum for that class.*

Category 6 Tournament Ski Boats - USA Water Ski Approved Three Event Tournament Towboats, inboard engine only, not to exceed 6.2L displacement. Empty documented weight not to exceed 3300 lbs. (BOD approved increase from 3200 to 3300 lbs. on 5/24/16)

Category 6C Classic Ski-boats - Boats permitted to register in this sub-category are still required to meet all current Class 6 criteria, except the requirement to be USA Waterski tested and approved is waived. See L&P for additional criteria. (BOD approved and added 11/24/2020)

Category 8 Tournament V-Drive Ski Boats - *AWSA* approved hulls, inboard engine only, not to exceed 6.2L displacement. Empty documented weight not to exceed 3300 lbs. (BOD approved increase from 3200 to 3300 lbs. on 5/24/16). See class 8 registration form for special restrictions.

Boats with wedges or boats with water ballast tanks designed to increase wakes will not be allowed.

Please check the Lake Saint Louis Community Association's Lakes and Parks Rules and Regulations for a complete list of our boating rules and safety regulations.

The attached document lists those Class Six and Eight boats, by model year that have been approved by the Lakes and Parks Committee and the Board of Directors.

Beginning in 2007 V-Drive Class 8 boats were authorized and an approved list of models developed.

Approved List Class "6" and "8" Ski Boats

Pre 1982 APPROVED SKI BOATS
